FALL DANCE  
FINANCE DEPARTMENT OFFICES CLOSED**

## **WALK WITH A DOC**

The Northeast Missouri Health Council, in partnership with Parks and Recreation, is holding a “Walk With A Doc” program every second and fourth Tuesday of the month at 5:30 pm in Brashear Park. This program not only encourages participants to walk, but also provides participants an opportunity to ask a doctor basic questions relating to their health during the program. Please see the flyer for the program attached to this Newsletter.

## **MODOT STP FUNDS REDIRECTED TO STIP FUNDS**

As last discussed in the June 1, 2016 Council Newsletter, the Missouri Department of Transportation (MoDOT) is eliminating the Small Urban Surface Transportation (STP) program and redirecting those funds to the Statewide Transportation Improvement Program (STIP). The City will lose \$62,341.26 that had been previously allocated for our collectors and arterials and used as we deemed appropriate. The funds were last used to complete the Franklin Street project between Patterson and Normal. The funds (\$3.5 million, excluding St. Louis and Kansas City amounts) will be added to MoDOT’s budget for use on projects based upon MoDOT’s criteria of need and allocation which includes the number of lane miles and the volume of traffic. City staff received official notice on August 5, 2016. Therefore, there is approximately \$212,000 in STP funds that need to be spent by the City. The tentative plan is to use those funds to improve Boundary Street in 2017. Please see the notice provided to City staff, and the official letter to the Mayor, both attached to this Newsletter.

## **CAPE AIR SELECTED AS EAS PROVIDER**

City staff received official notice from the United States Department of Transportation (USDOT) on August 9, 2016, that Cape Air had been selected to continue to provide Essential Air Service (EAS) at the Kirksville Regional Airport. This new contract begins October 1, 2016 and runs through September 30, 2020.

## **BALTIMORE MEADOWS STORM SHELTER**

City staff were asked whether or not Terravest Development Corporation intended to construct a storm shelter as part of the Baltimore Meadows development on North Baltimore Street. At this time, the developer does not intend to do so. City staff will inform the Council if this changes.

## **DISTINGUISHED SERVICE AWARD: OFFICER JUSTIN FOX**

On July 6, 2016, Kirksville Police Officer Justin Fox attempted a traffic stop on a suspected stolen motorcycle in which the driver fled from the vehicle and fired one shot at Officer Fox as he was running away. This then emerged into a four hour standoff with the armed suspect, at the intersection of W. Potter Ave and Elson St. The suspect was taken into custody without any further problems. During this incident, Officer Fox was able to keep his composure and give detailed reports that assisted in the apprehension of the suspect. On August 11, 2016, Officer Justin Fox was awarded the Distinguished Service Award for his involvement with this incident. Please see a photograph of Officer Fox receiving this award attached to this Newsletter.

## **WATERFOWL SEASON**

August 13, 2016, was the start date for waterfowl hunters to put out blinds at Hazel Creek Lake. Brian Todd arrived at a spot he has used for years sometime after 4:00 am. Chad Easley arrived after 5:00 am. Mr. Easley chose not to stay until the allotted time allowed to start, stating he would be talking to the Council. Mr. Todd had not put his blind out yet and there were other locations available. Since the Council met in July, 2016, City staff have not met with the hunters, but have sent a letter to all explaining the ordinance changes approved by the Council.

## **FORMER HIGH SCHOOL MAKES PLACES IN PERIL LIST**

On August 16, 2016, City staff announced that the Missouri Alliance for Historic Preservation (Missouri Preservation) recently released their 2016 list of historic "Places in Peril". The City of Kirksville's Economic and Community Development nominated the former Kirksville High School at 411 E. McPherson Street, in hopes that making the list would assist in attracting developers seeking to preserve historic properties.

Although it is unfortunate the former high school's condition qualifies it for the list, City staff were happy to announce that it was selected as no. 5 out of only 16 properties in Missouri for the "Places in Peril" list. This listing has the potential to catch the attention of a suitable buyer and developer who, hopefully, will repurpose and renovate this building due to its architectural merit, potential eligibility for historic tax credits, and special place in the hearts and minds of many Kirksville residents

## **WORKERS' COMPENSATION AUDIT**

Following a Workers' Compensation Audit conducted by the City's insurance company, Midwest Public Risk (MPR), MPR sent a check to the City for \$32,126.60. Please see a copy of the audit attached to this Newsletter.

## **CELLPHONE TOWERS IN RIGHT-OF-WAY**

City staff have been contacted by the company Mobilitie, which wishes to place roughly light pole-sized cellphone towers in City right-of-way. The company was informed that, if they want to pursue this, they need to notify the City in writing. They were informed that the letter should request consideration to be a telecommunications service provider for the City. As our other franchisees do, this would require a 5% gross receipts fee to be paid to the City. Mobilitie would be required to obtain a City of Kirksville business license and comply with our City right-of-way ordinances. Please see a copy of our Municipal Code, Appendix C, Article IV, Exchange Telephone Service attached to this Newsletter.

## **GLASS RECYCLING GRANT UPDATE**

City staff received the go ahead from the State for the work to begin on the glass recycling bunker on August 16, 2016. The Engineering Division of the Public Works Department will be finalizing the agreement and issue a notice to proceed. While our goal was to have the facility complete by October 1, 2016, so that curbside pickup could begin on October 3, 2016, that goal has been pushed back due to the construction schedule of Stanton Contracting. The Street Division of the Public Works Department is expected to pour the flatwork for the recycling project and Stanton Contracting was awarded the bid for the

balance of the project. However, they were also awarded the street work for the Kraft Heinz expansion project, which will delay their work on the glass recycling bunker. Additionally, if we receive notification that we can use grant money to purchase the totes, we will sell them for 50% of the cost. The totes will be sold at the front counter. More information on this process will be released so citizens know what to do. City staff will update the Council as work continues.

### **WEAVER DEVELOPMENT UPDATE**

City staff were notified that Weaver Development, Century 21 Whitney Agency and Dr. Burchett's facility on South Baltimore Street, would be selling their holdings to a new developer. Weaver is receiving benefit from the City through Chapter 353 and has been advised of their responsibilities of notification, etc. This may be a future Council action item. City staff will update the Council as more information becomes available.

### **SONIC DRIVE-IN EXPANSION**

Sonic Drive-In on North Baltimore Street has been working with City staff and provided a property drawing showing their plans to tear down the existing Sonic Drive-In, purchase the adjacent former eye clinic building, tear it down, and build a new Sonic Drive in there. Then they plan to build a volleyball court and a kid's playground on the site of the old Sonic Drive-In. They will be purchasing the land directly west of the eye clinic building, all the way back to the old railroad, from Aldi's. There will have to be a lot split, survey, etc. The new building will be larger, have a drive-up window, etc. City staff will update the Council as the project moves forward. Please see a copy of the site plan attached to this Newsletter.

### **CITY / CHAMBER / TOURISM LED SIGN UPDATE**

Last year City staff obtained quotes for the work of connecting electricity to the City's LED sign formerly located at the Kirksville Regional Airport, and Shahan Electric was the lowest bidder at \$1,270. Consequently, a purchase order was submitted for the same amount, and that amount was then rolled into 2016 as we waited for Century Signs of Quincy, Illinois, to install the sign itself. The sign was eventually installed in the spring and we have been waiting since then for Shahan Electric to connect the electricity. Due to health problems with his staff the work was delayed, but is now back on track. Due to Century Signs giving us incorrect information regarding the amount of electricity the new sign requires, and due to all involved assuming that the electric line connected to the old sign was in conduit (in reality there was no conduit and the wire was immersed in concrete with no protection), the price for connecting electricity to the sign will be more than the purchase order amount by an additional \$2,080. City staff have authorized Shahan Electric to proceed with the project. City staff will update the Council as work continues.

### **BALTIMORE WATER MAIN IMPROVEMENTS**

The Utility Maintenance Division of the Public Works Department began work on the water main on the 1700 and 1800 blocks of South Baltimore Street August 18, 2016. The Baltimore Street water main improvement is expected to last approximately three weeks, dependent upon weather.

## **SEWER LINING**

Visu-Sewer is conducting sewer improvements in various locations across the City. The work began during the week of August 21, 2016, and will be completed at some point in the fall.

## **SIDEWALK ON HALLIBURTON AND FLORENCE**

City staff are soliciting bids for the sidewalk project that was awarded through MoDOT from Transportation Alternative Program (TAP) funds. The project has already provided sidewalk along LaHarpe and will continue on Halliburton and Florence off of LaHarpe.

## **SHELBY STREET WORK**

The Street Maintenance Division of the Public Works Department continues work on Shelby Street. Additionally, Finance Director Lacy King has reviewed numbers from Fund 34, Economic Development Sales Tax, and is comfortable with allocating \$500,000 from the available funds for street work.

## **BALTIMORE STREET / BUSINESS US HWY 63 UPDATE**

A member of the City's Airport and Transportation Commission (ATC) reached out to MoDOT Northeast District Engineer Amy Crawford regarding an update on Baltimore Street / Business US Hwy 63. Crawford offered to attend a meeting of the ATC to update them on the coping MoDOT has planned for the road through the STIP within their five-year plan. Crawford plans to attend the September 13, 2016 meeting of the ATC.

## **NORTH BALTIMORE CID**

K2, via Development Dynamics, has submitted their Petition for the creation of a Community Improvement District (CID) and Agreement for consideration by the City Council. This is the CID planned for the development located at the corner of Baltimore Street / Business US Hwy 63 and Highway 6. There are several businesses planned for this location, one of which is Hobby Lobby, who has submitted its building plans to the Codes and Planning Department. City staff will update the Council as this project moves forward.

## **LAW ENFORCEMENT APPRECIATION DAY**

Local pastor Glenn Berry, along with other churches in the area, is hosting a meal for all law enforcement and their families on September 17, 2016. Local law enforcement are invited to bring their families or a guest to the Ray Klinginsmith Amphitheater in Rotary Park any time between 3:00 pm and 7:30 pm. There will be pulled pork, lots of home cooked side dishes, desserts, live music, as well as some children's yard games. There will also be a memory table on display for all fallen officers.

## **BIOMETRIC SCREENINGS FOR ALL EMPLOYEES**

Biometric screenings have been scheduled for all full-time City employees as well as their spouses who are covered through the City's health insurance. The screenings are provided through Interactive Health. They have been scheduled for October 11, 12, and 13, 2016. The results of these screenings determine employee premiums for 2017.

## **OFFICER PURYEAR RECOGNIZED FOR YEARS OF SERVICE**

On August 25, 2016, Kirksville Police Officer William “Bill” Puryear was recognized for his 15 years of service with the department. During that time Ofc. Puryear has been a member of the SRT team and is currently a Police In-Service Instructor, Taser Instructor, and a certified Field Training Officer. Please see a photograph recognizing Officer Puryear’s years of service attached to this Newsletter.

## **WATER CUSTOMER COMPLAINT**

A complaint was made to the Consumer Protection Division of the Attorney General’s office in February of this year by a Kirksville water customer, and City staff became aware of the complaint when notified by the Consumer Protection Advocate to respond within 14 days. The customer, Allan Holloway, moved into a trailer owned by his nephew in mid-February, which had been vacated and leaving an outstanding water/sewer bill. A deposit of \$180 and payment of the outstanding water bill, including penalties, a reconnection fee and collection agency fees, was requested at the time Mr. Holloway signed up for water. He had the deposit money, but was not willing to pay the other fees and left City Hall. Linda Bears became involved, informing us that she was living in the residence until she could get back on her feet. Ms. Bears expressed her dissatisfaction over the bill and fees in several conversations with the Finance Director, who removed much of the balance of the fees in favor of the complainants. In the meantime, they had spent the \$180 for the deposit and had been living in the residence without potable water for more days than allowed by City Code. City staff gave them names of churches where they might seek funds to pay for the deposit. The nephew was to appear in court on February 18 and the City’s Prosecuting Attorney would attempt to collect the outstanding funds through court, but was unsuccessful. A document was prepared that Mr. Holloway agreed to sign stating his intent to pay the service connection over a period of time and water would be provided once the deposit was paid. Ms. Bears would be responsible for paying the deposit, and a private party was willing to give Ms. Bears the opportunity to keep her commitment to repay the deposit. The water was turned on. This was the end of February. Then City staff received a letter from the Consumer Protection Division that a complaint had been filed by Allan Holloway and Linda Holloway Bears. The City Manager responded within the required 14-day period, but never received a reply or confirmation. On March 30, she emailed the Consumer Advocate to ask if her response letter was received, but she still didn’t receive any notification. She also called the Jefferson City office with no responding calls. The City Clerk made a call in July and finally on August 8, was able to reach the Consumer Advocate who said that the complainants had not responded within the 45-day allotted time period, and the case was considered closed.

## **HY-VEE EXPANSION**

City staff have been in contact with John Brehm of Hy-Vee. He is the Hy-Vee employee City staff worked with on approving the expansion for the Hy-Vee gas station / convenience store. Mr. Brehm wanted City staff to know that they have now decided to go ahead with the expansion, but that it will not be as big as they originally thought. He will be sending revised plans to City staff for review. City staff will update the Council as the project moves forward.

## **AED'S FOR THE POLICE AND FIRE DEPARTMENTS**

Northeast Missouri (NEMO) Heart Health Corporation has proposed selling the City 10 AED's for use by the Police and Fire Departments. The plan would be to place one AED in each patrol car (eight) and then give two to the Fire Department for use in their fire trucks. Given that this purchase was not in the 2016 Budget, the Police Department has proposed using \$1,000 from 10-20-4980 (Radio Repair) and \$600 from 10-20-4890 (Printing Copying). Another consideration is the cost of replacing batteries approximately every five years.

## **TRUMAN'S PRESIDENTIAL SEARCH**

Mayor Jerry Mills and City Manager Mari Macomber were invited to meet with the consulting firm charged with assisting Truman State University in their hiring process. They were joined by A.T. Still University President Craig Phelps, State Representative Nate Walker, and others in responding to questions and participating in a general discussion regarding the person they select. For the City, having someone that understands there is a community beyond the campus that is affected by Truman is important.

## **EMERGENCY NOTIFICATION SYSTEM**

The City emergency personnel have been meeting over the course of the last year with other emergency service providers to discuss an emergency notification system. The City had an automatic telephone notification system in place but after several years the company from whom it was purchased no longer supported our system. The program can be used to notify people within the entire community or a specific region of the City. Its ultimate purpose is to notify people in the event of an emergency. For example, there was a recent issue with a man knocking on doors in the county. With this system, a message could have been sent to anyone in that area to let them know what was going on. More discussions will occur and the lion's share of the cost would be borne by the E-911 Center. City Staff will update the Council as this project moves forward.

## **ASSISTANCE TO FIREFIGHTERS GRANT UPDATE**

City staff learned September 2, 2016, that the City received partial support from our last Assistance to Firefighters Grant application. City staff had asked for SCBA tanks, face masks/respirators, and then a refill station and air compressor. The City did not receive the funds to purchase the face masks and tanks, but we did receive the funds to purchase the refill station and air compressor. The total grant is \$48,491, with the Federal Emergency Management Agency (FEMA) paying \$46,191 and the City paying \$2,309.

## **FORREST LAKE SWIMMING REQUEST**

The Truman State University Swim Team is requesting they be allowed to swim in Forrest Lake outside of the swim beach area and after the swim beach area has been closed, which occurred after Labor Day weekend. The coach completed a Special Event Application to begin processing their request, and City staff are currently working with them to ensure that the swimming is done safely.

## **ADDITIONAL STREET IMPROVEMENTS**

The contractor for the City, Mihalevich Concrete Construction, began additional concrete slab repairs on Tuesday, September 6, 2016. Construction is expected to last approximately four to six weeks, dependent upon weather. The repair locations include the following streets:

East Brewington Avenue – from Lakeside Manor Drive to Suburban Drive

Broadlawn Drive – from Brewington Avenue to the Cul-de-Sac

Quail Drive – from the East approach at Pheasant Drive to approximately 250 feet

Somerset Drive – from Cherry Lane to Northtown Road

Pintail Drive – from Gadwell Street to Dear Street

Mulanix Street – from Elm Street to Cottonwood Street

Osteopathy Street – from Potter Avenue to Elizabeth Street

New Street – from Meadow Lane to Rosewood Drive

New Street – from Sharon Street to Drake Drive

## **CABLE AND CHARLES STREET ENHANCEMENTS**

The contractor for the City, Stanton Contracting, began street improvements on Cable Street and Charles Street on Tuesday, September 6, 2016. Construction is expected to last approximately six to eight weeks and is dependent upon weather. These improvements will extend storm water pipes, increase the size of the street approaches to Industrial Road, and add concrete surface to the new Charles Street Extension East of Industrial Road. These improvements are part of the City's contribution to the Kraft Heinz expansion project.

## **KDIC SEPTEMBER 2016 MEETING**

The Kirksville Downtown Improvement Committee (KDIC) met on September 7, 2016. The KDIC voted to rejoin the Missouri Main Street Connection (MMSC). Additionally, the group gave City staff permission to move forward with rebranding the KDIC, which will include a new logo, promotional materials and brochures, as well as a possible name change. City staff will update the Council as the KDIC moves forward with their plans.

## **CITY COMMEMORATES 9/11**

The Kirksville Fire Department will be conducting a ceremony to commemorate the terrorist attacks of September 11, 2001. The ceremony will begin at 8:45 am, Sunday, September 11, 2016, on the North side of the Adair County Courthouse, 106 W. Washington Street. The KFD ladder truck will fly the presentation flag downtown from 8:15 am until the conclusion of a ceremony conducted by A. T. Still University, which will begin at 12:00 pm.

## **NEW STUDENT WELCOME**

The Kirksville Area Chamber of Commerce will be sponsoring their annual New Student Welcome on the Square in Downtown Kirksville on Sunday, September 11, 2016, from 5:00 pm to 7:00 pm. Area businesses and organizations were invited to setup and provide their information and services to new students, and the Chamber is providing a dinner of hotdogs, chips, and a drink for attendees through Hy-Vee.

## **MML ANNUAL CONFERENCE**

The Missouri Municipal League's (MML) Annual Conference will be September 12, 2016, at Union Station in St. Louis. Mayor Pro Tem Philip Biston, Assistant City Manager Ashley Young, and Administrative Assistant Lindsay Leckbee will be in attendance representing the City.

## **PARKS AND RECREATION PRESENTS MOMOLOGUES**

Tickets are on sale now for Kirksville Parks and Recreation's production of *MOMologues*. This original comedy about motherhood rips away the gauzy mask of parenthood to reveal what all mothers know but don't always talk about: It's overwhelming, and exhausting, but also very, very funny! Come join us for a night of laughter, September 15-17, or 22-24, at Jackson Stables. Tickets are available with a fancy snack for \$15, or simply enjoy the show for \$10. While motherhood usually involves the kids, be advised that the performance contains adult humor and language - so make it a parent's night out! Please see the flyer for the event attached to this Newsletter.

## **MAKE KIRKSVILLE SHINE EVENT**

The City, in support of Make Kirksville Shine, invites all members of the community to participate in a city-wide effort to clean-up our community. The Make Kirksville Shine event will take place on Saturday, September 17, from 8:00 am to 12:00 pm. Anyone interested can come to the Chamber of Commerce office, 304 South Franklin Street between those hours to pick-up trash bags and gloves. Someone from Make Kirksville Shine will be there to give out assignments to the volunteers. This would be a wonderful event for parents, who are looking for activities to do with your children. Not only does picking up trash help to beautify the community, but it also helps in the protection of our water sources. Trash and litter threaten the health of our streams, can block culverts downstream increasing the likelihood of flooding. If you are not able to stop by the Chamber of Commerce on Saturday, look around your neighborhood and consider helping out someone you know who could use a hand with their yard work.

## **FALL DANCE**

Parks and Recreation is again partnering with the NEMO Country Dance Club to sponsor a Fall Dance on September 24, 2016, from 8:00 pm to Midnight at the Moose Lodge, located at 2405 East Illinois Street. Admission is \$5 at the door and proceeds will go towards the local Special Olympics. Please see the flyer for the event attached to this Newsletter.

## **FINANCE DEPARTMENT OFFICES CLOSED**

The City's Finance Department, which includes Utility Billing, will be closed Wednesday September 28, 2016, from 3:00 pm to 5:00 pm for staff training and a development meeting. City utility payments can be placed in the drop box located at City Hall and will be processed when the business windows open on Thursday September 29, 2016, at 8:00 am.

# walk WITH a DOC

Take a **STEP** toward  
better **HEALTH**

Find out where we'll be in your state!  
**wALKwithaDOC.org**

*Take a step to a healthier you!*

#### Walking can:

- Lower low-density lipoprotein (LDL) cholesterol (the "bad" cholesterol)
- Raise high-density lipoprotein (HDL) cholesterol (the "good" cholesterol)
- Lower your blood pressure
- Manage your weight
- Improve your mood
- Stay strong and fit

Walking also strengthens your heart, feeds your brain and strengthens your bones.

*Our mission* is to encourage healthy physical activity in people of all ages, and reverse the consequences of a sedentary lifestyle in order to improve the health and well-being of the country.

Walk with a Doc was created by Dr. David Sabgir, a board-certified cardiologist who practices with Mount Carmel Clinical Cardiovascular Specialists — at Mount Carmel St. Anns Columbus, Ohio

## LPA Program Changes

On July 7, 2016, the Missouri Highways and Transportation Commission (MHTC) approved the elimination of the Small Urban Surface Transportation (STP-SU) and On-System Bridge and Rehabilitation (BRM) Programs. These programs have not been required by a federal transportation bill since 1991 so the MHTC decided to discontinue funding these programs in fiscal year 2017. These funds will be redirected towards MoDOT's Statewide Transportation Improvement Program (STIP) and distributed using the MHTC funding allocation formula. This was a tough and unpopular decision but was necessary due to limited resources.

The last allocation of STP-SU program funds has been allocated for fiscal year 2016 and is reflected in the linked [STP-SU fund balances](#) and on the [LPA website](#). MoDOT will honor previous project commitments and allow sponsors three years to use existing balances. Project sponsors will have until September 30, 2019 to obligate any remaining balance. No federal obligations will be allowed after September 30, 2019 including change orders, award adjustments or any other project related activities. Reimbursements of expenditures are eligible after September 30, 2019 as long as the funds have been obligated. Any remaining unobligated balances will be redirected to MoDOT's STIP after September 30, 2019. Thank you for your continued partnership to improve Missouri's transportation system. Please work with your [local MoDOT contact](#) to use your remaining balance. Please contact [Kenny Voss](#) at 573-526-2924 if you have any questions regarding this decision.

August 10, 2016

Mayor Richard Detweiler  
City of Kirksville  
201 S. Franklin Street  
Kirksville, MO 63501

Dear Mayor Detweiler:

On July 7, 2016, the Missouri Highways and Transportation Commission (MHTC) approved the elimination of the Small Urban Surface Transportation Program (STP-SU). The STP-SU program has not been required by a federal transportation bill since 1991 so the MHTC decided to discontinue funding of this program in fiscal year 2017. These funds will be redirected towards MoDOT's Statewide Transportation Improvement Program (STIP) and distributed using the MHTC funding allocation formula. While this was a tough decision to make, it was necessary in order to manage our statewide system with limited resources.

The last allocation of STP-SU program funds has been allocated for fiscal year 2016 and is reflected in the attached STP-SU fund balances. MoDOT will honor previous project commitments and allow cities three years to use existing balances. Cities will have until September 30, 2019 to obligate any remaining balance. No federal obligations will be allowed after September 30, 2019 including but not limited to change orders, award adjustments or any other project related activities. Reimbursements of expenditures are eligible after September 30, 2019 as long as the funds have been obligated. Any remaining unobligated balances will be redirected to MoDOT's STIP after September 30, 2019.

Thank you for your continued partnership to improve Missouri's transportation system. Please work with your local MoDOT contact to use your remaining balance. You may contact me at 573-526-2924 if you have any questions regarding this decision.

Sincerely,

Kenny Voss  
Local Programs Administrator

*Our mission is to provide a world-class transportation experience that delights our customers and promotes a prosperous Missouri.*

ARTICLE IV. - EXCHANGE TELEPHONE SERVICE (GENERALLY)<sup>[5]</sup>

An ordinance providing for a license or occupation tax to be paid by persons, firms, companies or corporations engaged in the business of furnishing telecommunications service in the City of Kirkville, Missouri.

The following definitions shall be additional language to this Article:

*Gross receipts.* The aggregate amount of all sales and charges, exclusive of sales and charges for the commodities or services relative to the business of supplying telephone or telephone service for compensation in the City during the period, less credits, refunds, sales taxes and uncollectible accounts actually charged off during the period. Effective July 1, 2006, to the extent required by Section 92.083 RSMo., as used in this article, the term shall be construed to mean all receipts from the retail sale of telecommunications service taxable under Section 144.020 RSMo., and from any retail customer now or hereafter exempt from state sales tax.

*Telecommunications service.* Exchange telephone service, telephone service, local exchange telephone transmission service and similar terms shall be construed to mean telecommunications service as defined in Section 92.077 RSMo. As of the date of adoption, this has the same meaning as such term as defined in Section 144.010 RSMo., which in turn as of the date of adoption hereof provides that telecommunications service means the transmission of information by wire, radio, optical cable, coaxial cable, electronic impulses, or other similar means, further provides that as used in this definition, "information" means knowledge or intelligence represented by any form of writing, signs, signals, pictures, sounds, or any other symbols, and further provides that telecommunications service does not include the following if such services are separately stated on the customer's bill or on records of the seller maintained in the ordinary course of business:

- (a) Access to the Internet, access to interactive computer services or electronic publishing services, except the amount paid for the telecommunications service used to provide such access;
- (b) Answering services and one-way paging services;
- (c) Private mobile radio services which are not two-way commercial mobile radio services such as wireless telephone, personal communications services or enhanced specialized mobile radio services as defined pursuant to federal law; or
- (d) Cable or satellite television or music services.

*"To the extent required by law".* The action is required or permitted by State law in order for the City to continue to receive municipal telecommunications tax revenues under this Article.

(Ord. No. 11753, 4-26-2006)

**Editor's note**— See note Art. IV.

Be it ordained by the council of the City of Kirksville, Missouri, as follows:

*Footnotes:*

*--- (5) ---*

*Editor's note*—Ord. No. 11753, adopted 4-26-2006, was adopted pursuant to the Municipal Telecommunications Business License Tax Simplification Act (Mo. Rev. Stat. §§ 92.074 — 92.095), and amended Article IV ("Exchange Telephone Service") of this appendix by changing the annual license or occupation tax imposed upon companies engaged in the business of furnishing telecommunications service in the City from five percent (5%) of gross receipts to two and three-tenths percent (2.3%) of gross receipts. Section 7 of the ordinance contained a provision that would revive and continue in effect the provisions of Sections 1 and 2 of Article IV as they existed prior to the effective date of the Municipal Telecommunications Business License Tax Simplification Act, if the Act was repealed or declared unconstitutional in total or in substantial part. The Act was declared unconstitutional by the Missouri Supreme Court in the City of Springfield vs Sprint Spectrum (No. SC87238, Mo. 2006). Consequently, the annual license or occupation tax imposed upon companies engaged in the business of furnishing telecommunications service in the City has been changed back to the tax rate as it existed prior to the effective date of the Act (5%).

Section 1. - [License or occupation tax.]

Every person, firm, company or corporation now or hereafter engaged in the business of furnishing telecommunications service in the City of Kirksville, Missouri, shall pay the said City as an annual license or occupation tax, five percent (5%) of the gross receipts derived from the furnishing of such service within said City, as hereinafter set forth.

To the extent required by law, the City Manager of the City is hereby authorized and directed to promulgate and publish the revenue neutral rates to be applied in the City of Kirksville for bills to be rendered on or after July 1, 2006, based on the rate information supplied by the Director of Revenue of the State of Missouri.

Effective July 1, 2006, to the extent required by law, notwithstanding the provisions of any municipal business license tax (as defined in Section 92.077 RSMo.) ordinance, this tax shall be based solely and exclusively on those gross receipts of telecommunications companies (being any company doing business in the State of Missouri that provides telecommunications service) for the retail sale of telecommunications services which are subject to taxation under sections 144.010 and 144.020 RSMo.

To the extent required or permitted by law, for bills rendered on and after July 1, 2006, the

tax rate shall be five percent (5%) or the revenue neutral rates as promulgated and published.

To the extent required by law, for bills rendered on and after July 1, 2007 the tax rate shall be adjusted as promulgated and published by the Director of the Department of Revenue for the State of Missouri pursuant to Section 92.086 RSMo. The City shall notify the Director of the Department of Revenue in writing within 30 days of any change in the tax rate to the extent required by Section 92.086 RSMo.

(Ord. No. 11753, 4-26-2006)

**Editor's note—** See note Art. IV.

Section 2. - [Statement of gross receipts, filing; payment of tax.]

All such persons, firms, companies or corporations mentioned in Section 1 hereof shall file with the City Finance Director of said city on or before the 15th day each calendar month, a sworn statement of the gross receipts derived by such person, firm, company or corporation from the furnishing of such service during the preceding calendar month. At the time of filing all such sworn statements, the person, firm, company or corporation filing such sworn statement shall pay to the City Finance Director of the said City five percent (5%) of such gross receipts. Gross receipts derived from the furnishing of such service to said City shall not be included in any such sworn statements, nor shall any tax be due on such gross receipts. The telecommunications company shall have the privilege of crediting such sums as may be due hereunder with any unpaid balance due said company for telephone service or facilities furnished to said City.

Effective July 1, 2006, to the extent required by law, the Director of the Department of Revenue for the State of Missouri shall collect, administer, and distribute telecommunications business license tax revenues in accordance with the provisions of Sections 92.074 to 92.095 RSMo. and returns filed by telecommunications companies with the Director and tax payments made by such companies to the Director pursuant to such statutes shall take the place of the statements and payments described above.

The Finance Director, and such other persons, may be designated by the City Council, from time to time, is and are hereby authorized to investigate the correctness and accuracy of any statement filed under the provisions of this section, and for that purpose shall have access at all reasonable times to the books, documents, papers and records of any person filing such

statement. Effective July 1, 2006, any audit of a telecommunications company for purposes of sections 92.074 to 92.095 [RSMo.] shall be conducted pursuant to such statutes and any rules promulgated thereunder.

(Ord. No. 10700, § 1, 12-16-85; Ord. No. 11753, 4-26-2006)

**Editor's note**— See note Art. IV.

Section 3. - [Initial payment.]

The first payment of tax provided for herein shall be due and payable on August 15, 1968, and shall be for the period from January 1, 1968 to June 30, 1968.

Section 4. - [Payment in lieu of occupation, etc.; taxes, exceptions.]

The payments required by the provisions of this ordinance shall be in lieu of all other excises, charges, exactions, rentals, impositions, or other license or occupation taxes heretofore imposed upon any person, firm, company or corporation engaged in the business described in Section 1 hereof; but nothing herein contained shall be construed to exempt such person, firm, company or corporation from any general or special ad valorem tax imposed upon the public generally by said city.

Section 5. - [Temporary moving of wires.]

All such persons, firms, companies or corporations mentioned in Section 1 on the request of any person shall remove or raise or lower its wires temporarily to permit the moving of houses or other bulky structures. The expense of such temporary removal, raising or lowering of wires shall be paid by the party or parties requesting such raising or lowering of wires and payment in advance may be required. Not less than forty-eight (48) hours' advance notice shall be given to arrange for such temporary wire changes.

Section 6. - [Tree trimming.]

The right is hereby granted to all such persons, firms, companies or corporations mentioned in Section 1 to trim trees, brush, or hedges upon and overhanging the streets, alleys, sidewalks and public places of said City, so as to prevent such foliage from coming in contact with telephone

wires and cables, all of said trimming to be done under the supervision and direction of the governing body of said City or of any City official to whom said duties have been or may be delegated.

Section 7. - [Repeal of conflict; validity.]

All ordinances or parts of ordinances in conflict with this ordinance are hereby repealed. The invalidity of any section or portion thereof of this ordinance shall not affect the validity of the remainder thereof.

To the extent required by law, in all respects this article shall be interpreted, construed and applied consistent with the requirements of Sections 92.074 to 92.095 RSMo.

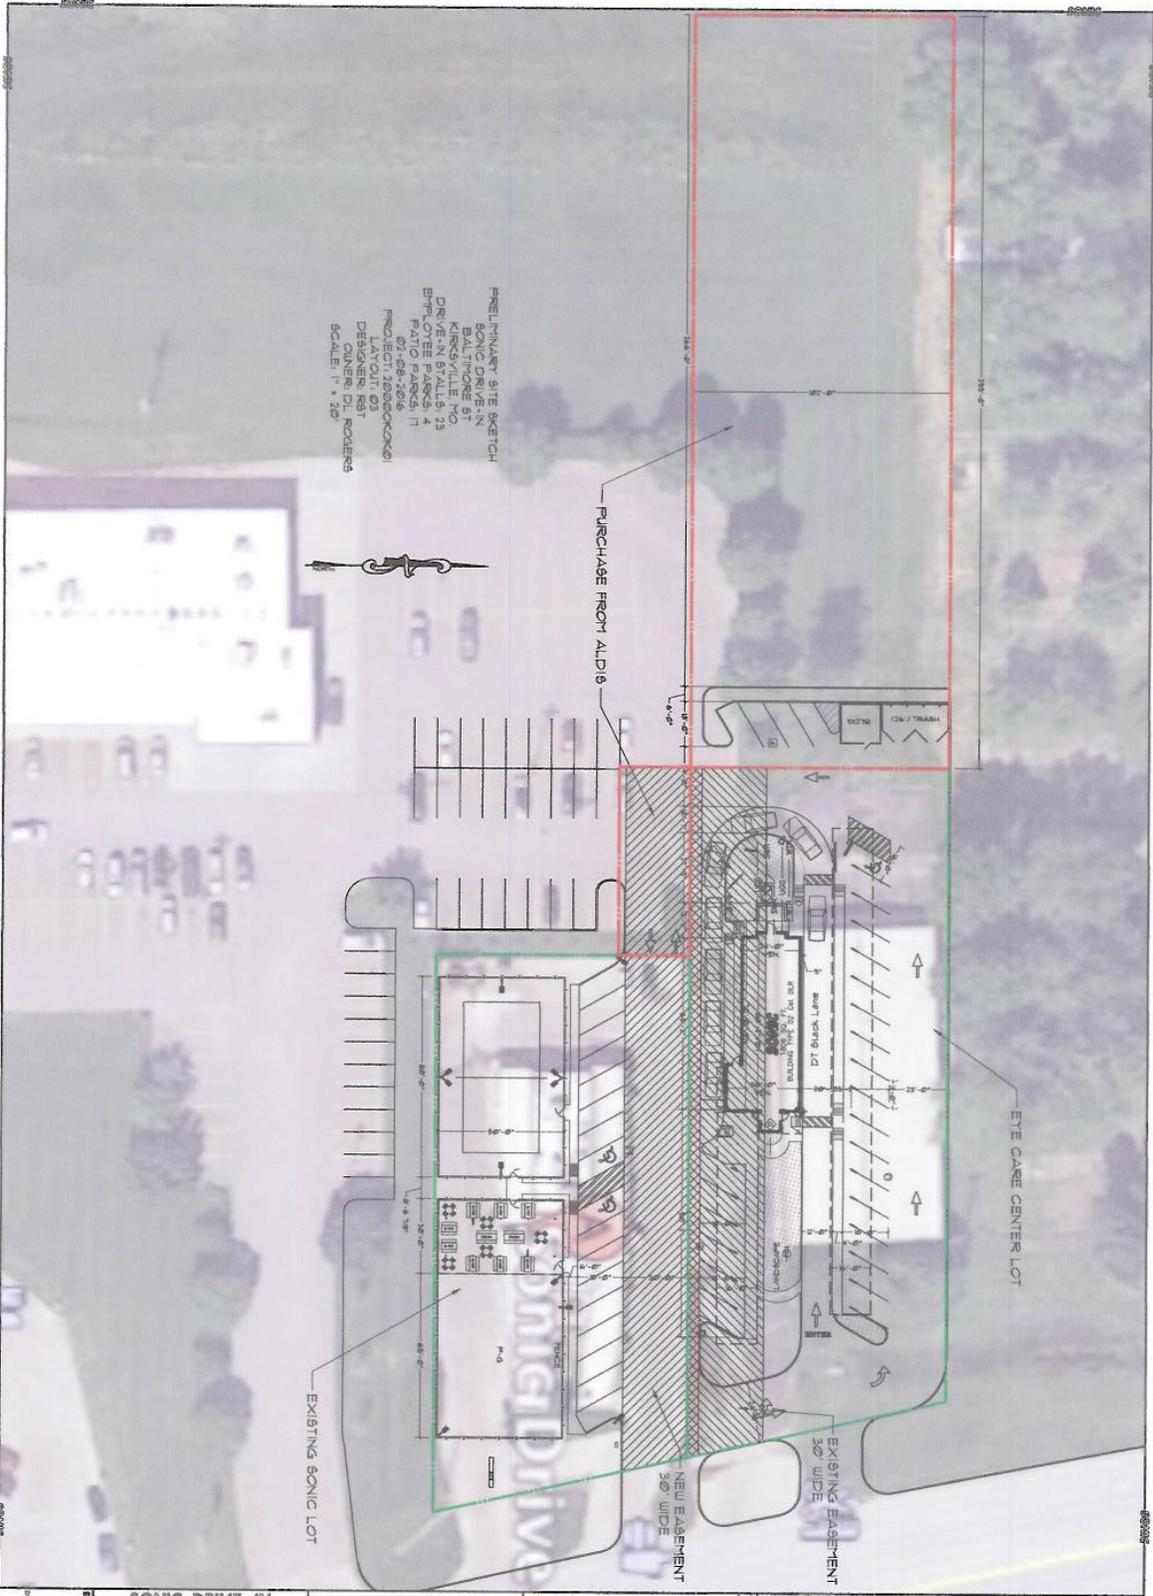

It is hereby declared to be the intention of the City Council that each and every part, section and subsection of this Ordinance shall be separate and severable from each and every other part, section and subsection hereof and that the City Council intends to adopt each said part, section and subsection separately and independently of any other part, section and subsection. In the event that any part of this ordinance shall be determined to be or to have been unlawful or unconstitutional, the remaining parts, sections and subsections shall be and remain in full force and effect. In the event that the Municipal Telecommunications Business License Tax Simplification Act shall be repealed or shall be declared unconstitutional in total or in substantial part, it is the intent of the City to continue in effect the provisions of Article IV, Sections 1 and 2 of the Municipal Code as they existed prior to the effective date of the Act, unaffected by the provisions of the Act to the greatest extent possible without preventing the City from receiving tax revenues under this Article.

(Ord. No. 11753, 4-26-2006)

Section 8. - [Effective date.]

This ordinance shall be in full force and effect beginning January 1, 1968.

Passed this 18th day of December, 1967.

REC'D AUG - 1 2016

July 29, 2016

Dear Ms. Brumbaugh:

The Department of Revenue received notification that the city of Kirksville is continuing to impose a one-half-percent (1/2%) city economic development sales tax. The department's records indicate this tax was extended by Ordinance number 11823 effective October 1, 2012 with no expiration date. The department will update its records with the information provided.

If you require additional information, please contact the Taxation Division at the above address or telephone number, or e-mail.

Sincerely,

A handwritten signature in cursive script that reads "Cheryl Bosch".

# ADAIR COUNTY HEALTH DEPARTMENT

## Home Health Agency

In Cooperation with the  
MISSOURI DEPARTMENT OF HEALTH & SENIOR SERVICES

Phone: (660) 665-8491  
Fax: (660) 627-2913

1001 S. Jamison  
Kirksville, MO 63501

REC'D AUG - 5 2016

Dear City Manager Macomber,

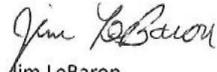

Annually the health department provides the citizens of Adair County the opportunity to receive flu vaccinations at no cost. This service is provided during normal clinic hours at our clinic location at 1001 South Jamison and during our annual "Drive-thru" flu clinic/exercise at the NEMO Fair Grounds. This exercise provides the opportunity through the support of numerous agencies and volunteers to be prepared in the event we are required to dispense medical countermeasures e.g. vaccines, etc. to all citizens of Adair County within a 48 hour time period.

This year's flu clinic/exercise will be expanded by offering the flu clinic at two separate locations, the NEMO Fair Grounds and at the Fire Station within the City of Novinger. The event will be held on Tuesday October 4, 2016 12:00 PM – 6:00 PM. Due to the magnitude of this event we will utilize an "Area Unified Command" located at the health department.

This year Adair County Health Department cordially invites you to observe/participate in this event by joining us at the health department, we recognize your busy schedules therefore, if you would be available only through the lunch hour (12:00 – 1:00 PM) or another time, would be greatly appreciated (Please RSVP by Friday September 30, 2016 so we may make arrangements for lunch)

In addition to the above and if you are available please join us as we conduct a "walk-thru" presentation of the exercise/event with all of our community support partners who will be supporting/participating in the exercise. This meeting will also be held at the health department on Thursday September 15, 2016 at 9:00 AM.

Respectfully,

Jim LeBaron  
Administrator

**Adair County Health Department  
Announces DRIVE THRU FLU CLINICS  
Tuesday October 4, 2016!!!**

- ✓ Drive-Thru Flu Clinic will be at the NEMO Fair Grounds *and* south of the Novinger Fire Station (on Hwy 6) from Noon to 6PM.
- ✓ For persons ages 3 and older.
- ✓ Quadrivalent flu vaccine (covers 4 flu strains).
- ✓ Please wear short sleeved shirt or loose fitting clothes.
- ✓ No cost to Adair County Residents, please bring Medicare/Medicaid cards.
- ✓ Participation in this Emergency Preparedness exercise will help our community have a healthy influenza season!
- ✓ Please see our website <http://adair.lphamo.org>. or call 660-665-8491 for more information.
- ✓ Fairground participants will enter the clinic via Patterson Street. Please follow the signs to this location.
- ✓ Thanks for your participation & see you there!!!

STATE OF MISSOURI  
DEPARTMENT OF NATURAL RESOURCES

Jeremiah W. (Jay) Nixon, Governor • Sara Parker Pauley, Director

www.dnr.mo.gov

August 29, 2016

REC'D SEP - 1 2016

Dear Public Water System:

The Department of Natural Resources' Public Drinking Water Branch is sending you this letter to inform you of recent legislation signed by the Governor that became effective on August 28, 2016.

HB1717 was passed during the 2016 legislative session and requires water systems that plan to adjust their fluoridation levels to meet certain notification requirements before modification. The new law requires the water system to notify its customers, the Department of Health and Senior Services and the Department of Natural Resources at least 90 days prior to a vote on the modification (addition or removal). The entire text of the bill can be found in Section 640.136.1 RSMo., or at <http://www.house.mo.gov/billtracking/bills161/billpdf/truly/HB1717T.PDF>.

Customer notification must be made via radio, television, newspaper, regular mail, electronic means, or any combination of methods to most effectively notify customers. If a water system fails to meet the notification requirements, it must return the fluoridation of its water to the previous level until proper notification is provided.

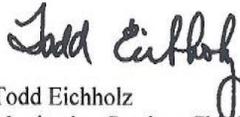

In an effort to assist water systems in complying with the new law, the Public Drinking Water Branch has developed a certification form to submit to the department certifying that the notification requirements have been met. The Certification of Fluoride Modification form is located on the department's webpage at <http://dnr.mo.gov/forms/#DrinkingWater>.

Additionally, as with any modification or alteration of a public water system, approval from the infrastructure Permits and Engineering Section is required. Inquiries should be directed to Maher Jaafari, Section Chief, at 573-751-5924.

Thank you for your attention to this matter. If you have any questions or need further assistance please feel free to contact the Public Drinking Water Branch at 573-751-4090.

Sincerely,

WATER PROTECTION PROGRAM

Todd Eichholz  
Monitoring Section, Chief  
Public Drinking Water Branch

Jerry Mills  
Mayor  
City of Kirksville  
201 South Franklin Street  
Kirksville, Missouri 63501

Dear Mayor Mills:

Thank you for notifying us that Mr. Tom Collins is serving as Emergency Management Director for the City of Kirksville.

We have found over the years training in emergency management greatly enhances both the understanding of the emergency management function and improves the operational capability of those who attend. We highly recommend the following course if you and your director have not previously taken the:

**IS-230.d Fundamentals of Emergency Management**

The IS-230.d course may be taken as an independent study course online at  
<http://training.fema.gov/IS/crslst.aspx?all=true>

We look forward to working with you and Mr. Collins. Please let us know if we can be of any assistance to you.

Sincerely,

A handwritten signature in black ink that reads "Ron Walker".

REC'D SEP - 1 2016

## ADAIR COUNTY BENEFITS

### MARK TWAIN TRANSMISSION PROJECT

ATXI is planning to build a 345,000-volt transmission line in Northeast Missouri along with a new substation near Kirksville. Known as the Mark Twain Transmission Project, it consists of two line segments, from Palmyra to Kirksville, and Kirksville to the Iowa border. The total length of these segments is approximately 100 miles. The Mark Twain Transmission Project also includes construction of a 161,000-volt connector transmission line from the existing Adair Substation to the Zachary Substation.

### BENEFITS TO ADAIR COUNTY

- Building a stronger energy infrastructure promotes growth to rural communities through tax revenue and economic development. The Mark Twain Transmission Project will generate **\$57.8 million** in economic activity for Adair County.
- Adair County will receive more than **\$1.2 million annually** in new tax revenue to support schools, law enforcement, health departments, and other vital public services.
- Adair County school districts will receive more than **\$763,000 annually** in new tax revenue for the Mark Twain Transmission Project.
- Taxes from the construction phase of the Mark Twain Transmission Project will generate approximately **\$263,000** to Adair County.

### COMPENSATION FOR LANDOWNERS

- With a minimized steel monopole design of the structures, the Project removes only one acre of farmland from permanent production across the entire five-county region. Farmers continue to utilize land under the transmission lines, allowing for farming up to the base of the each structure foundation.
- Landowners are fully compensated for the easements required of the transmission line and structures. ATXI's offer of compensation for easements is intended to make the landowners whole by fully compensating them for any effect on the market value of their property caused by the imposition of the easement. Upon completion of construction, ATXI's representatives assess, and, if necessary, repair or compensate landowners for damages that may result from construction of the transmission line. This includes damages to crops, soil, fences and other property or improvements.
- Once the Mark Twain Transmission Project is complete, landowners retain the right to engage in activities under the line, including farming, grazing and hunting.

Greetings,

What a pleasure to drive around Kirksville and see improvements in the downtown business area! New sidewalks, street overlays, and signage enhance not only the overall functionality of the downtown area, but also improve traffic flow and provide a fresh, clean look for the city square.

On behalf of the Board of Trustees, University leadership, faculty, staff and students, congratulations on a job well done. Your efforts to keep Kirksville attractive help ATSU recruit the best community-minded students.

Yours in service,

  
Craig M. Phelps, DO  
President

Dear Mari,

REC'D AUG - 5 2016

I wanted to write and thank you for trusting us to represent the City in defense of the lawsuit filed by Mr. Hamidi. Litigation is costly, frustrating and time consuming, but the correct result was reached. Laura and Matt were the right lawyers for this case and did an outstanding job. The second case still remains but I am confident this result will go a long way towards resolving the second. Thank you again for trusting and we look forward to continuing to represent the City where we can add value to Howard's excellent service and representation. Sincerely,

Jo Hasman
